

Guide Hachette 2010 presents Riesling Klur 2010

jeudi, 03 septembre 2009

"10 years ago Clément Klur started a new winery, took his independence and the way to biodynamie. The family is also very involved in tourism and cultural events are sometimes organised in the round shaped wine cellar. This riesling 2007, born in this organic, grass covered cellar without external yeast is a very fresh wine. A young wine but very elegant wine from granit soils, aromes of white fruits, flowers, honey and spices. To drink now or keep it for a while (rest sugar 3g/l)"
